

Kerikeri High School had outstanding success at the Far North Science and Technology event. This follows last year's national success with our three students at 'Realize the Dream' and it was wonderful to see our national winners investing in this year's event as Judges and Keynote Speakers.

The pressure is on our Seniors right now as we are coming to the end of the winter term with high academic expectations, Examinations and many Assessment deadlines. Our students need to be working very hard at this critical point of the year.
