## Principal's Message

In this Newsletter we are celebrating and acknowledging Year 13 student Sunny Perry who on Wednesday 1<sup>st</sup> May at Parliament was awarded the 2024 Prime Minister's Science Award, recognising her outstanding Science Fair project which won the Top Energy Far North Science Fair last year. This is an outstanding achievement, and all the more impressive considering Sunny won this prestigious award from Year 12, becoming only the second student ever to win with a Year 12 project. Sunny was presented her award by the Minister for Science, Innovation and Technology, Judith Collins, and the Prime Minister Christopher Luxon. The prize is valued at \$50,000.00 which Sunny will use to fund her tertiary study. You can read more about Sunny's prize in the Student Achievement section of this newsletter.

And hot on the heels of winning the Prime Minister's Science Award, Sunny has been notified that her research has been accepted for the 9<sup>th</sup> International Researchers Conference (IYRC Spring 2024) which is held at the University of Tokyo in June. Sunny will join young scientists from 25 countries around the world, presenting and sharing their projects and findings.

Sitting behind Sunny's recognition is an enormous amount of unseen commitment and dedication; Sunny has worked extremely hard and been well supported by her outstanding Science teachers and her family. Her example to other students is hugely important. I know Sunny has made sacrifices, and experienced challenges with this project. She has responded by pushing on, not giving up and by showing resilience to bring her project to fruition. Sunny has also demonstrated for us, as have others before her, that our geography is no barrier to elite attainment and success. We collectively congratulate Sunny and we share her family's pride in her outstanding recognition. Well done Sunny!

I also want to acknowledge and thank Ms Kerri Williams who took a group of 12 students to Spain during the April school holidays, for an exciting and intense full immersion Spanish experience. An enormous amount of planning, fundraising and organisation went in over an extended period to enable this trip to happen. I also want to thank Assistant Principal Mr Rolf Weight for accompanying the group and supporting them. The trip was a huge success, much enjoyed by our students, and they learnt and experienced a lot.

Thank you everyone who supported our PTA Workday on Friday last week. All funds raised are allocated for spending by our Student Council, for items and facilities that are not Ministry of Education funded. We celebrate that our students make these spending decisions to further enhance their school. Our staff spent the day engaged in Professional Learning, focused on boys engagement and achievement.

Our Term Two school calendar is packed with a wide range of academic, sporting and cultural activities for our students to extend and involve themselves in. As always, we encourage all our students to be busy and as heavily involved in the Four Cornerstones as they can manage. It's no secret that our busiest students are our most successful, well connected and positive students.

It's my privilege to support our students in the wide range of school activities they involve themselves in. I am thoroughly enjoying getting along to shows, performances and school sports, and I appreciate the opportunity to catch up with so many parents. Please feel free to make yourself known to me as we support our students and children.

Ngā mihi nui

Kia ora koutou

Nāku iti noa, nā

Mike Clent  
**Principal**

## Student Achievements

PRIME MINISTER'S  
SCIENCE PRIZES  
AOTEAROA NEW ZEALAND

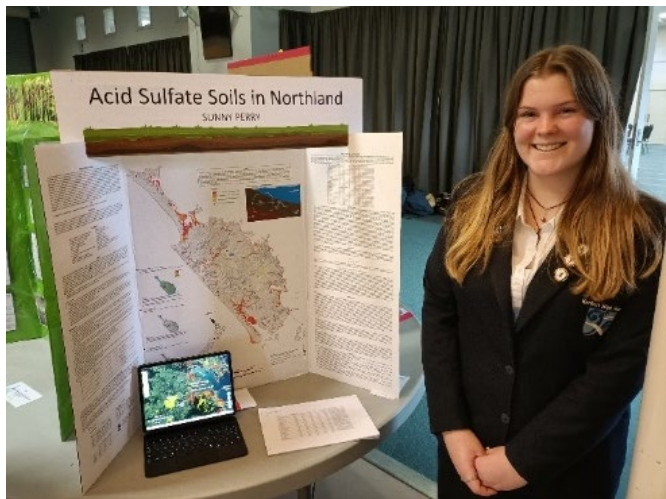

### 2023 TE PUIAKI KAIPŪTAIAO ĀNAMATA FUTURE SCIENTIST PRIZE

**Groundbreaking soil research wins high school student the Prime Minister's Future Scientist Prize**

Sunny Perry has discovered that some soils in Northland are highly corrosive – acidic enough to eat away at concrete foundations and damage ecosystems.

Sunny was a Year 12 student at Kerikeri High School when she completed the project which earned her the Prime Minister's Future Scientist Prize.

Sunny's research has the potential for wide-reaching impact, by generating new data that will change the way that landowners and councils manage land.

#### The problem

Sunny says that the idea for her research came when her father, an engineer, told her about potential acid sulphate soils (PASS). These types of soils, when exposed to oxygen, generate sulfuric acid, which can have a detrimental impact on biodiversity, infrastructure, and human health. He explained that not much is known about whether these types of soils

are found in Northland, and Sunny decided to investigate further – “I found it quite interesting how one type of soil can be so damaging for the environment and damage infrastructure and the ecosystem.”

Sunny did preliminary research, and found maps of these soils for Whangarei, and some for the Kaipara District, but none for the Far North District.

“My project was about mapping where these soils are, and trying to predict where they can be found in Northland.”

Based on her research, Sunny knew that PASS are formed from soil that is rich in organic matter, waterlogged, and deficient in oxygen. In those conditions, microbes and bacteria in the soil are forced to use anaerobic respiration which converts sulfates into sulfides.

She put together a research plan, selecting sites in wetlands to begin sampling, trying to find the “mysterious soils”. She also used historical records to identify low-lying sites which had been wetlands about 10,000 years ago. Based on these predictions, she hypothesised that she would detect PASS at 70% of her selected sites.

#### The discovery

Over the span of her fieldwork, Sunny collected 480 samples from 20 sites across the Far North region – all while completing her normal schoolwork.

She developed a Geographic Information System (GIS) map to help her predict sites which might be likely to have PASS, and modified a method for sampling and testing from the *Australian National Acid Sulfate Soils Guidance*.

Sunny developed a procedure involving bagging, vacuum-packing, and chilling her samples – which significantly increased efficiency and accuracy compared with the methods described in the Australian manual.

She reduced errors by including triple trials for each depth, calibrating the digital pH meter, and thoroughly cleaning her equipment to prevent cross-contamination.

Sunny's results showed that her predications were very accurate – she detected PASS at 90% of the sites, including inland sites where PASS had never been recorded before.

### What damage can PASS cause?

Sunny explains that when these types of soils are exposed to air, iron sulphides can react rapidly with oxygen to produce sulfuric acid. Sulfuric acid in soils can have a range of negative effects, including for plants, animals, humans, and can even “attack” materials such as concrete.

### Positive impact

Importantly, PASS can be treated to reduce this danger, for example by adding lime (calcium carbonate) to the soil to neutralise the acidity. Therefore, Sunny's results will be useful for the agricultural and building industries in Northland, and for efforts to preserve biodiversity in and around waterways and the natural environment.

Sunny hopes she can take her research further – “with more development to my map and further refinement I'll have a map that can be used by land developers and councils to show what soils need to be treated and which soils to avoid”.

Sunny's chemistry teacher, Jackie Robertson, who is Head of the Science Department at Kerikeri High School, says she is incredibly proud of Sunny and her pioneering research.

“It's just wonderful what she's achieved. She's a lovely girl and she deserves to get this award.”

She says Sunny's enthusiasm and love of science can inspire other girls to get into science – “she'll go a long way”.

Kerikeri High School Principal Mike Clent says he has known Sunny since she started at the school in Year 7 and has watched her grow into “a really confident, capable, very able student”.

“Sunny's award is huge for her and we're really proud of her, and it's also great recognition for our hard-working science department. It's going to set the bar really high for students to come.”

The experts on the selection panel were very impressed with the scale of Sunny's research and its potential applications for management of land use.

Sunny plans to use this prize to finance her university education, but with a broad interest in the world of science, she's still deciding what she plans to specialise in.

### Mō Te Puiaki About the Prize

#### TE PUIAKI KAIPŪTAIAO ĀNAMATA FUTURE SCIENTIST PRIZE

Awarded to a student at secondary school for outstanding achievement in a practical and innovative project in science, mathematics, technology, or engineering.

This is one of five prizes awarded each year.

The Government of New Zealand introduced The Prime Minister's Science Prizes in 2009 as a way of raising the profile and prestige of science in Aotearoa and internationally.

[www.pmscienceprizes.org.nz/](http://www.pmscienceprizes.org.nz/)

You can view a short video detailing Sunny's award-winning project by following the link here:

<https://youtube>

Congratulations to **Sunny Perry** (Year 13) who was awarded a scholarship for the Blake Inspire Trust Programme. She attended a week-long programme in Auckland, where students worked together with scientists, environmental experts, a diverse range of leaders and other like-minded students to develop strong leadership skills while learning about topical environmental issues and how they can take action to tackle them.

Congratulations to all the students who competed in the Year 7 and 8 Impromptu Speech Competitions. Placegetters were:

Year 7

- 1st **Beau Mounter**
- 2nd **Skyler Wood**
- 3rd **Quinn Francis**

Year 8

- 1st **Eva Hunter**
- 2nd **Bailey Wood**
- 3rd **Taylor Pavlicevic**

Congratulations to the three Year 7 and 8 teams that competed in the regional competition of the Kids' Lit Quiz, proudly representing Kerikeri High School in this competition that encourages and celebrates our junior readers.

**Payton Russell**  
**Winter Oszajca**  
**Amelia Stuart**  
**Lyreena Heta**

**Soren Gustafson**  
**Xavier Ellis**  
**Peyton Manning**  
**Rebecca Addis**

**Axel Luzet**  
**Alya McLean**  
**Ava Rakena**  
**Myra Tongaawhikau**

Congratulations to **Finn Hofer** (Year 9), **Jack Mounter** (Year 9), **Will Anderson** (Year 10), and **Declan Mills** (Year 11) who have qualified to complete the second round of the Otago Junior Maths Competition. They were all placed in the top 15% of their year level nationally after round one.

Congratulations to **Ava-Richelle Vea** (Year 12) and **Jaydizae Tuwhangai** (Year 12) who were selected to attend an all-expenses paid trip to Auckland to take part in a Young Enterprise extreme experience, Young Navigators. This was a 3-day business experience for rangatahi Maori and Pasifika run in the April school holiday. They teamed up with students from around the country and business mentors from top New Zealand companies to plan and pitch business solutions to real world problems. Both students said "they had a blast" and learnt a lot from the opportunity.

Congratulations to **Liv Teixeira** (Year 12) who will feature in the upcoming series of Young Riders screening on TVNZ+ from May 17. The show follows young equestrian riders as they compete in the North Island Show Jumping circuit.

The Year 7 cohort were extremely fortunate to have a visit from the Royal New Zealand Air Force STEM educational program School to Skies. Students got to experience many hands-on activities including maintenance skills on the Grumman aircraft. Our Year 7 students thoroughly enjoyed their time with RNZAF personnel, an experience and enthusiasm that carried on into their classroom learning.

## Te Tai Tokerau Festival

In the last week of Term One our Kapa Haka roopu Te Po o Manako delivered an outstanding performance at the annual Te Tai Tokerau Festival which was held at Okaihau College this year. Their performance brought the house down and those of us who were fortunate enough to be there were filled with pride.

Te Pou o Manakō were led strongly by Kaitātaki **Tane Ātahikoia Smith** and Kaitātaki Wahine **Shayda-Ray Brown**. Our senior Te Ao Haka students are to be commended as they were heavily involved in teaching the roopū during the after-school practices. Tō kaha hoki e ngā rangatira!

A huge amount of work went in behind the scenes and we thank and acknowledge Whaea **Tania Peters Hei Hei**, Matua **Jordan Westerlund**, Whaea **Huia Kingi** and Matua **Mori Rapana** for their guidance in establishing the Kaupapa of the roopū and their expertise in composing waiata, haka and choreography. He mihi maioha tēne ki ngā kaiako me te whānau whānui o te roopū nei.... Nga mihi

## Anzac Day

The Kerikeri Dawn Service on ANZAC Day was strongly supported by Kerikeri High School and our local community. It is always a poignant occasion as we commemorate and acknowledge the service and sacrifice of those who went before us. We are proud to support the Kerikeri RSA on this special day. Our Head Students **Charlie Klinac** and **Lucy Clent** were the MCs and each also spoke movingly about their family connections to ANZAC Day; our Deputy Head Boy **Lukas Bayer** and Deputy Head Girl **Ciara Andrews** read the names of the Kerikeri fallen.

Our roopu, Te Po o Manako supported with waiata, leading the National Anthems of Aotearoa New Zealand and Australia, as well as supporting prayer and karakia with a beautiful rendition of How Great Thou Art/Whakaaria Mai. Our Music Tutor **Mr John Bell** played the Last Post and Reveille superbly in what is always an especially moving moment, and Year 12 student **Rongoa Mata-Ariki** presented the Ode of Remembrance in Te Reo. Our full Prefect Team were in attendance and Prefects formally laid a wreath at the cenotaph.

The Kerikeri Sailing Team attended the Anzac Day service in New Plymouth.

ANZAC Day fell during the school holidays and so on the first Thursday of Term 2 we held our own school commemoration to acknowledge ANZAC Day. The names of the Kerikeri fallen were read by **Lukas and Ciara**, and our Head Students, **Lucy and Charlie** MC'd again for us, and Rongoa read the Ode of Remembrance in Te Reo and English. Our Music teacher **Ms Kathryn Thomson** played the Last Post and Reveille and students respectfully observed a minutes silence.

## Spanish Trip

During the last week of Term 1 and the April school holidays, 12 Kerikeri High School students were immersed in the Spanish language and culture in Spain. Students spent two weeks living with a host family in Salamanca, attending a language school for four hours each day and then visiting monuments, museums, historic sites and other activities during the afternoons and evenings and weekend day trips to Zamora and Avila.

Following this they spent six nights in Madrid exploring the current capital and the old capital Toledo. Highlights of the trip were ziplining across a river with the historic city of Toledo as the backdrop, walking on a city wall built almost 1000 years ago, eating at the oldest restaurant in the world, being in a bell tower as the bells chime, rowing games on a pond in Madrid, contemplating the traditions of bullfighting, surviving the escape rooms and visiting a museum of illusions.

## Kerikeri High School 50th Jubilee

This year marks the 50th anniversary of the establishment of Kerikeri High School, and the occasion will be marked with a Jubilee Reunion for former students and staff on Saturday 14 September.

Originally known as the Kerikeri District High School, the change to Kerikeri High School in 1974 saw the school roll more than double to 380 students, 60% of whom were new to the school.

The 50th Anniversary is a chance to celebrate the unique place of Kerikeri High School in the community and recognise how the school has changed and grown along with the town and wider region it serves. While still proudly serving its wider community, Kerikeri High School has grown to be the largest high school in the Northland region, with over 1600 students on the current roll.

Past students and staff are warmly invited to join in festivities on Saturday 14 September. Recent alumni visiting the school have marvelled at the changes to the grounds, and growth of the school since their time. A guided tour of the school will allow jubilee attendees a similar experience before a 'mix and mingle' evening held at the Kerikeri Sports Complex.

Kerikeri High School is a huge part of the local Kerikeri community and deeply connected to it. The school is especially proud to have so many alumni on staff, with over 30 former students now employed across the school. Strong bonds of connection to our community and to our school continue to draw many of our former students back to Kerikeri as they begin their professional lives and begin to raise their own children.

With 50 years of history and heritage, and many whānau with generations who have passed through the doors of Kerikeri High School, there is a lot to celebrate and remember. We warmly encourage all former students and staff to gather, catch up and reconnect with old friends, share stories, and celebrate 50 years of Kerikeri High School with us.

Please join us on Saturday 14 September 2024. Tickets are on sale now and are available from Kerikeri High School Reception or online at [jubilee@kerikerihigh.ac.nz](mailto:jubilee@kerikerihigh.ac.nz)

## SAVE Group – Plastic Recycling

Last term the SAVE Group made several sculptures based on microscopic ocean creatures. These artworks made from material which would end up in landfill, or our oceans, highlight the disturbing issue of waste plastic. The collection is on display in the library.

Local author & environmentalist Roze Webster visited our School and talked to the SAVE Group about her mission to recycle plastic bottle tops into useful, hand-wearing products.

Please remember to separate all your plastic bottle top, all types, any colour, as they cannot be placed in household recycling bins. Also, a reminder that all supermarkets now have soft plastic recycling.

<https://www.recycling.kiwi.nz/faqs>

## Phones Away for the Day

We would like to thank students for the respect being shown to our new requirements that phones must be away for the day. We love seeing the increased focus in classroom engagement and learning, and we appreciate seeing so many students actively playing and interacting with each other during break times. Ngā mihi nui Kerikeri High School.

A small number of students are still coming to terms with the new requirements and find

themselves having their phones taken from them because they have chosen to use them when they shouldn't be. We are adjusting our schoolwide response to this from the beginning of Week 4 this term. From Monday May 20 confiscated phones will not be returned directly to students. The school will hold the phone until a parent or caregiver is able to come into Reception and collect the phone.

To avoid having their phone taken from them, students need to make sure it is away for the day and in their school bag.

## PPTA Paid Union Meeting

The PPTA have called a Paid Union Meeting for the afternoon of **Friday 17 May**. Timetabled classes for students will end at 12:15pm.

Students in Years 9 – 13 may leave school at 12:15pm if they provide their Form Teacher with a note from home giving permission for them to leave.

Year 7 and 8 students, and any other students without permission to leave will remain at school and be supervised by non-union staff.

For students remaining, lunch time will be from 12:15pm – 1:00pm, followed by periods 4 and 5.

School buses will run at normal times at the end of the day.

## Student Appointments

A general reminder if your child is required to leave school for an appointment during the day, please let us know to ensure attendance is correctly marked. This can be done by either:

- Using the School App (download for free)
- Providing a written note
- Phoning the school
- Emailing [attendance@kerikerihigh.ac.nz](mailto:attendance@kerikerihigh.ac.nz)

## NCEA Change Teacher Only Day

Friday 31 May 2024 will be a Teacher Only Day at Kerikeri High School, as part of the nation-wide NCEA Change process. We will not be open for supervision of students. This day will allow teachers time to collaborate and work intensively on the important changes coming to NCEA.

## School Policies

All our school policies are publicly available and can be accessed here: [Kerikeri High School Policies](#)

Our Community Username is: kerikerihigh

And our Community Password is: waka

Policies that are being reviewed in Term 2 are:

Employer Responsibility

Appointment Procedure

Equal Employment Opportunities

Teacher Relief Cover

Safety Checking

Police Vetting

Timetable

## School Uniform

With the colder weather upon us, it's a good time to remind everyone of our requirements that students wear correct and full school uniform. That includes to and from school as well as throughout the school day. To support families and whanau, we are subsidising the cost of the school jacket at the uniform shop for the next 6 weeks, reducing the cost by \$20.00 a jacket. Please consider taking advantage of this special pricing with the winter weather nearing.

### THE UNIFORM SHOPPE THE SMART CHOICE

To our parents/caregivers of Kerikeri High School,

Please note that as of 1<sup>st</sup> June we will have the following price increases for school uniform. Polo's from \$29.50 to \$32.50, PE Top from \$35.00 to \$40.00, Trousers from \$55.00 to \$62.00 as well as school shorts from \$45 to \$47.00. This is our first price increase since having our retail store open in Waipapa, and with the cost of goods along with transport increasing it was very difficult for us to hold our pricing. Thank you for your continued support!

**KERIKERI UNIFORM SHOPPE**

# STORE HOURS

## School Canteen Survey

In 2023, a group of our Senior SAVE students and Ms Crawford surveyed staff and students about the quality, pricing, and packaging of the food in our School Canteen. The feedback was shared with our Canteen Providers.

Please take the time to complete this year's survey below by scanning the QR code or clicking on the link.

<https://www.surveymonkey.com/r/Y2ZXSZ3>

### HOW ARE WE DOING?

We're always looking to make things better for you and your students. Your input means a lot to us! Please take a second to share your thoughts by scanning the QR code, clicking here, or visiting [surveymonkey.com/r/Y2ZXSZ3](https://www.surveymonkey.com/r/Y2ZXSZ3) answer a quick two-question survey.

## ReSport Charitable Trust

Kerikeri High School has joined forces with the ReSport Charitable Trust and have a Taonga placed in the gymnasium foyer for the collection of donated second-hand sporting gear.

Old sports gear, in good condition, will be collected and repurposed to people in need. Helping them to overcome the often-unaffordable price tag of sports gear that inhibits them from being active and playing a sport.

Student **Kosta Silich** (Year 12) from the Student Sports Council is leading this initiative and will be presenting to each year level assembly to further promote this worthwhile cause.

We welcome any donated gear to be dropped to either Reception or the Sports Department so we may put into the Taonga. We appreciate your support.

## Calculator Donations

Our Mathematics Department would also love the donation of any unwanted calculators you may have spare at home. These are welcomed to be dropped to Reception at any time.

## International Student Host Families

If you are interested in becoming a host family and join our fun and caring host family community, please contact us.

Remuneration is provided and all applicants are Police vetted.

If you would like to receive more information, please contact our **International Department on 09 407 0163 or email**

Scan the QR Code to view the International Department video.

## Next Board of Trustees Meeting

Our next Board of Trustees meeting will be at 5.30pm on Wednesday 15 May, in the Boardroom.

## Upcoming Dates

Board of Trustees Meeting – 15 May  
Drama Performance “Old Times” – 15 May 7pm  
Pink Shirt Day – 16 May  
PPTA Paid Union Meeting – 17 May  
Work Day Mufti Day – 30 May  
NCEA Change TOD – 31 May  
Board of Trustees Meeting – 19 June  
Term 2 Ends – 5 July

## Online Community Health Clinics Calendar

Health New Zealand – Te Whatu Ora in Te Tai Tokerau Northland now has a Community Clinics Calendar on its website.

Clinics listed include Tamariki Ear Clinics, Youth Health Services, and Immunisations – all available free of charge to school students and their whānau.

It allows anyone to browse or filter to find upcoming clinics of interest, throughout the region, as well as information on how to book an appointment if necessary.

To find it, visit [northlanddhb.org.nz](http://northlanddhb.org.nz) and click on the Community Clinics Calendar tile on the home page.

Te Tai Tokerau

Dear Parents/Caregivers,

This is to inform you that Kerikeri Oral Health Clinic (123 Hone Heke Road, Kerikeri) has become one of several teaching facilities for AUT Oral Health Therapist Students within Te Tai Tokerau.

Patients seen at this clinic may be examined and treated by Oral Health Students supervised by a DCNZ (Dental Council of New Zealand) registered Oral Health or Dental Therapist.

You will need to give verbal consent when booking the appointment, and written consent will be obtained at the examination appointment. Appointments may take longer depending on what treatment is required.

If you are unwilling to have your child treated by a student we will rebook your child, however, please be aware there may be a delay in receiving an appointment time and this may be at another clinic.

If you have further enquiries, please contact 0800 MY TEETH (0800 698 3384).

Ngā mihi
